

NEXUS ENERGY CENTER

Building an Energy Economy for our Community

**COME NETWORK WITH HUNTSVILLE AREA
BUSINESSES, RESEARCHERS, AND
ENTREPRENEURS MOTIVATED TO
CREATING ADVANCED ENERGY SOLUTIONS**

the global specialist
in energy management

Schneider offers energy efficient building solutions for a variety of customers. They give a way for public entities to obtain and finance needed capital projects through energy efficiency savings. You receive a comprehensive solution that addresses maintenance, lighting, HVAC and energy management needs for the client. You'll be engaged in a long term partnership to sustain project success and the cost of the project is offset by the energy savings realized.

"Working with Schneider has been a very rewarding experience for our system. Not too often do you have an opportunity to update your facilities, save money, and become more energy efficiency all in one transaction... certainly appealing to the public and are wise uses of limited tax dollars." –Henry Co. Schools
