# About Us – Energy Huntsville

---

- Built on collaboration
- Feed us opportunities
- Basis of dialog
- Opportunities for everyone
- Living document

Let the Opportunities Drive the Discussion

# ESTCP Solicits Installation Energy Proposals

---

- Pre-Proposal Submissions Are Due March 28, 2013
  - Requesting proposals for demonstration of installation energy technologies
  - ESTCP funds projects ranging in size from under \$100,000 up to \$1 million per year
  - Environmental Security Technology Certification Program (ESTCP)
- 2 Areas of Focus
    - Smart and Secure Military Installation Energy Management; and
    - Advanced Building Energy Management and Control

Date: Tue, Feb 19, 2013

Time: 02:00 PM EST

Duration: 1 hour

Host(s): ESTCP

ESTCP Webinar

# Resource Energy Mgt (REM)

---

- Army Corps HNC
- RFP – Dec 2013
- Potential Value - \$245M
- Small Business Set-Aside
- 541330: Engineering Services
- Reducing energy and other resource consumption, saving money, and helping the environment
- Focuses on no- and low-cost opportunities to reduce energy consumption in real time, including behavior aspects of energy end uses and operation and maintenance measures

# Army's Largest Solar Installation

## Center completes Army's largest solar array installation

HUNTSVILLE, Ala.--The largest solar power system in the U.S. Army is coming online at White Sands Missile Range, N.M., and officials gathered Jan. 16 to mark the occasion with a ribbon cutting ceremony. The Energy Savings Performance Contract project, awarded and managed by the U.S. Army Engineering and Support Center, Huntsville, provides the sprawling desert base with a new 4.465 megawatt solar photovoltaic system, guarantees energy savings of 35,358M British thermal units per year, and reduces their energy consumption by 10 percent, said Wesley Malone, Huntsville Center project manager.
