

“Gary from Synergy taught me more about energy consumption during that 2 to 3 hour inspection than anyone has ever taught me in the past. I sure wish other contractors had taken the time to explain the important information he shared with me that day and had given me the suggestions I needed to help save money and conserve energy.”

Judy Street - Huntsville, AL

The Home of The Street Family

Home Profile:

Year Home Built.....1982
Square Footage.....2207
Number of Floors.....1
Number of Occupants.....2
Number of Bedrooms/Baths.....4/2
Location.....Huntsville

Costs and Rebates of Initial Measures:

Total Pre-Rebate Project Cost\$10,000
WISE Rebate.....\$750
Total Post-Rebate Project Cost.....\$9,250
Total Modeled Annual Energy Savings.....22.2%

Contractor:

Synergy Home Performance
256-690-8849

Judy and Kevin own and operate a local commercial janitorial cleaning service. Their home is much more comfortable thanks to the WISE Program.

Energy Efficiency Improvements Completed:

- 1) New Energy Star Heat Pump
- 2) Attic Insulation
- 3) Duct Sealing
- 4) Air Sealing in Attic

Additional Improvements

The Street's added mechanical ventilation by installing new energy efficient and quiet Panasonic bath fans. These fans will automatically turn on and off depending on the ventilation needs of the home. They also upgraded all the lights in the home to LEDs to further reduce their consumption.
